Thank you for facilitating a great trip for us. Your staff were excellent, striking a very happy, appropriate rapport with our guys; the site is tremendous – the emphasis on safety was clearly instinctive and absolutely natural, and all the more impressive for that – and while it provided good opportunities for being supportive and breaking some boundaries, fundamentally we had a lot of fun, which was great when all around they are being beset by exam pressures.

I really recommend it, the days plans were excellent and we left tired, exhilarated and happy.

All of our group took part and conquered many fears about height. Our young people were joyful and also helped each other with top tips on how to complete certain sections. It was a great team building and resilience opportunity

# WHY GO APE?

Outdoor learning is the perfect way to help children grow their natural curiosity, improve their physical and mental health, and boost their self-confidence. Everything's more fun outdoors, and children have an easier time focusing on tasks and fostering independence. Plus, an early-life appreciation of nature leads to a greater desire to protect the environment as they grow.
